Waby Loan — Loan Product Field Specification (Sample Pack)

Purpose: give the design/dev team every field needed to build the admin panel's 'Add Loan Product' form, illustrated with realistic-looking sample data.

IMPORTANT — READ BEFORE USING THIS FILE

1. All bank names, rates, limits and charges in the 'Sample Products' sheet are ILLUSTRATIVE / DUMMY DATA created to show field combinations. None of these numbers are verified against the actual banks and must NEVER be shown to a customer, partner, or bank as if real. Before go-live, each bank's real published rate card must replace these values, or the bank names must be swapped for generic labels (Bank 1, Bank 2...) if verified data isn't available yet.

2. Columns marked in yellow on the 'Sample Products' sheet are fields you did not list in your brief but that a real Sri Lankan bank loan form always needs (interest rate, collateral, guarantor, insurance, CRIB check, etc.). Without them the calculator cannot actually compute a repayment or an eligibility decision — see the gap analysis below.

3. This pack does NOT attempt every literal permutation of every field (that would be thousands of rows, not something a design team can use as a wireframe reference). Instead each bank carries 5 representative product types chosen to cover every combination you asked about at least once: %-of-salary basis, OT included/excluded, other-income included/excluded, government/semi-gov/private/professional eligibility, gender-restricted product, and a leasing product with a balloon payment. That is the useful unit — a literal combinatorial matrix is a step backward, not forward, for a UI spec.

Sheets in this workbook:

- Field Dictionary — every field, its data type, and what it controls in the calculator. This is the actual spec your dev team builds the form from.
- Sample Products — 10 banks x 5 products = 50 rows, one per loan product, all fields filled in.
- Repayment Calc Example — a worked example showing how salary %, OT averaging, and other income actually flow into a monthly repayment capacity number, with live formulas.
- Eligible Companies List — sample structure for the 'approved private-sector employer' list referenced by several products.

#	Field Name	Source	Data Type / Input Control	Options / Format	What it drives in the calculator
1	Bank Name	Requested	Dropdown	List of onboarded banks	Groups products by issuer; filters bank branding on the customer-facing calculator
2	Loan Product Name	Requested	Text	Free text	Display label shown to the customer
3	Loan Category	Suggested	Dropdown	Personal / Housing / Vehicle Leasing / Education / Business / Pensioner	Determines which sub-fields are shown (e.g. balloon payment only shows for Leasing)
4	Repayment Capacity Base (% of Gross Salary)	Requested	Number (%)	e.g. 60%, 70%	Caps max installment = this % x qualifying income
5	OT Income Included	Requested	Yes/No toggle	Yes / No	Whether overtime is added to qualifying income
6	OT Averaging Period (months)	Requested	Number	N/A, 3, 6, 12	Number of payslips averaged before adding OT to income
7	Other Income Considered	Requested	Yes/No toggle	Yes / No	Whether rental/business/remittance income can be added to qualifying income
8	Other Income Types Allowed	Suggested	Multi-select	Rental, Business, Foreign Remittance, Pension, Allowances	Restricts which 'other income' categories the form accepts
9	Loan Tenure Min (months)	Requested	Number	Integer	Lower bound on the tenure slider
10	Loan Tenure Max (months)	Requested	Number	Integer	Upper bound on the tenure slider
11	Documentation Charge Basis	Requested	Dropdown	% of loan / Fixed amount	Switches the doc-charge formula between percentage and flat
12	Documentation Charge Value	Requested	Number	% or LKR	The rate or flat figure used by the basis above
13	Documentation Charge Min (LKR)	Requested	Number	LKR	Floors the % calculation so small loans don't get a token fee
14	Documentation Charge Max (LKR)	Requested	Number	LKR	Caps the % calculation on large loans
15	Loan Amount Min (LKR)	Requested	Number	LKR	Lower bound on the loan-amount slider
16	Loan Amount Max (LKR)	Requested	Number	LKR	Upper bound on the loan-amount slider
17	Repayment Period Min (months)	Requested	Number	Integer	Shortest installment schedule offered
18	Repayment Period Max (months)	Requested	Number	Integer	Longest installment schedule offered
19	Eligible Profession / Sector	Requested	Multi-select	Government / Semi-Government / Private / Doctor / Nurse / Any Professional / Self-Employed	Filters which products a customer sees based on their declared occupation
20	Eligible Companies List Required	Requested	Yes/No toggle	Yes / No	If Yes, customer's employer must appear on the linked approved-employer list

#	Field Name	Source	Data Type / Input Control	Options / Format	What it drives in the calculator
21	Eligible Companies Reference	Requested	Link / Lookup	Points to 'Eligible Companies List' sheet/table	The actual list checked against the employer field
22	Common Loan (Open to All)	Requested	Yes/No toggle	Yes / No	If Yes, skips profession/gender/company filters entirely
23	Gender Eligibility	Requested	Dropdown	Any / Male Only / Female Only	Filters product visibility by declared gender
24	Age Min (years)	Requested	Number	Integer	Youngest eligible applicant
25	Age Max at Maturity (years)	Requested	Number	Integer	Applicant's age at final installment must not exceed this
26	Early Settlement Allowed	Suggested	Yes/No toggle	Yes / No	Whether the product permits paying off early at all
27	Early Settlement Charge (%)	Requested	Number (%)	% of outstanding balance	Penalty applied if the customer settles before term end
28	Balloon Payment Allowed (Leasing)	Requested	Yes/No/N-A	Yes / No / N/A	Only relevant when Loan Category = Vehicle Leasing
29	Balloon Payment (% of Asset Value)	Requested	Number (%)	% or N/A	Size of the lump sum due at lease end
30	Interest Rate Type	Suggested — gap	Dropdown	Fixed / Variable / Reducing Balance / Flat	Selects which amortization formula the calculator runs — without this the tool cannot compute a monthly installment at all
31	Interest Rate (% p.a.)	Suggested — gap	Number (%)	Annual %	The actual rate used in the repayment formula
32	Min. Employment / Confirmation Period	Suggested — gap	Number (months)	Integer	Minimum time in current job before eligible
33	Min. Net Monthly Income (LKR)	Suggested — gap	Number	LKR	Income floor independent of the %-of-salary cap
34	Guarantor Required	Suggested — gap	Yes/No + count	No / 1 / 2	Whether the form must collect guarantor details
35	Collateral / Security Required	Suggested — gap	Yes/No + type	None / Vehicle / Property / Fixed Deposit	Whether the form must collect a security/asset section
36	Insurance Required	Suggested — gap	Yes/No + type	None / Life / Asset / Both	Whether an insurance step is added to the application flow
37	Late Payment Penalty (%)	Suggested — gap	Number (%)	% p.a. or flat fee	Penalty formula shown in the T&Cs / repayment schedule
38	Grace Period (days)	Suggested — gap	Number	Integer	Days after due date before penalty applies
39	Processing / Approval Time (days)	Suggested	Number	Business days	Displayed to the customer as an SLA expectation
40	CRIB / Credit Bureau Check Required	Suggested — gap	Yes/No toggle	Yes / No	Whether the workflow must trigger a credit bureau pull

#	Field Name	Source	Data Type / Input Control	Options / Format	What it drives in the calculator
41	Salary Must Be Credited to This Bank	Suggested — gap	Yes/No toggle	Yes / No	Common Sri Lankan bank condition; affects eligibility logic
42	Co-Applicant Allowed	Suggested	Yes/No toggle	Yes / No	Whether the form should offer a joint-applicant section
43	Top-Up Loan Allowed After (months)	Suggested	Number	Integer or N/A	Whether/when an existing customer can apply for a top-up
44	Currency	Suggested	Fixed	LKR	Kept explicit since some banks quote USD leasing for imported vehicles

Yellow rows = fields you didn't list but the product needs. Rows marked 'Suggested — gap' are the ones I'd flag as non-optional: without an interest rate field in particular, nothing downstream of this form can actually calculate a repayment.

Worked Example — Qualifying Income & Max Monthly Installment

Yellow cells = sample applicant inputs (editable). Everything else is a live formula.

Basic Monthly Salary (LKR)	150,000	
Average Monthly OT — last 6 months (LKR)	20,000	
OT Included by this Product? (Yes/No)	Yes	
Other Income — Rental/Business (LKR)	15,000	
Other Income Considered by this Product? (Ye	Yes	
Repayment Capacity Base for this Product (%)	70%	
Existing Monthly Loan Commitments (LKR)	10,000	
Qualifying Income (LKR)	185,000	*Basic Salary + (OT if this product allows it) + (Other Income if this product allows it)*
Max Monthly Installment Capacity (LKR)	119,500	*(Qualifying Income x Repayment Base %) minus Existing Loan Commitments*

Gap this exposes: the fields you listed can tell the calculator the customer's MAX INSTALLMENT. They cannot tell it the max LOAN AMOUNT the customer can actually afford at that installment — that needs Interest Rate and Tenure (the two 'suggested — gap' fields) fed into a standard amortization formula. Example below assumes 15% p.a. reducing balance over 48 months.

Assumed Interest Rate (% p.a.)	15%	
Assumed Tenure (months)	48	
Max Loan Amount at that Installment (LKR	4,293,812	*Standard reducing-balance present-value formula — this is the number the calculator should actually show the customer*

Bank Name	List Name (referenced by product)	Tier	Sample Company	Sector
Commercial Bank of Ceylor	Approved Employer List – Tier A/B	A	John Keells Holdings PLC	Conglomerate
Commercial Bank of Ceylor	Approved Employer List – Tier A/B	A	Dialog Axiata PLC	Telecom
Commercial Bank of Ceylor	Approved Employer List – Tier A/B	B	Local SME Pvt Ltd (example)	SME
Hatton National Bank	Approved Employer List – Tier A/B	A	MAS Holdings	Apparel/Manufacturing
Sampath Bank	Approved Hospital List	A	Asiri Hospital Holdings	Private Healthcare
Sampath Bank	Approved Hospital List	A	Nawaloka Hospitals PLC	Private Healthcare

Structure only — sample entries. Each bank's real credit/HR team must supply and periodically update its actual approved-employer / approved-hospital lists; do not treat these names as verified partnerships.
